## 1. Qualitative Information on Consolidated Results for the Nine-Month Period of Fiscal 2021

### (1) Explanation of Business Results

During the subject third quarter cumulative period, in addition to the holding of the Tokyo Olympic and Paralympic Games, areas under the state of emergency expanded due to the spread of the Delta variant of COVID-19. Currently, socio-economic activities are returning to normal backed by the increasing vaccination rate and the decision by the government's Digital Society Promotion Council to issue "vaccine passports (vaccination certificates)" online for overseas travels.

In the real estate industry, of which the Samty Group is a part, with regard to rental apartments, occupancy rates, rent levels, and property sales prices have remained favorable, because they are not easily affected by economic trends or the effects of the COVID-19 pandemic. Furthermore, according to the Land Value LOOK Report by the Ministry of Land, Infrastructure, Transport and Tourism, a greater number of areas saw land value increase for the third consecutive quarter, indicating no significant impact of COVID-19 on land value.

Under such conditions, the Samty Group launched initiatives designed to maximize income gain, such as the selling of a rental condominium in the latter half of the fiscal year, in accordance with the strategy of the medium-term management plan announced in January 2021. With regard to the purchase of properties, favorable progress was made with purchases of sites for development and of profitable properties. In May 2021, as a hotel investment initiative we entered into a capital and business alliance agreement with Wealth Management, Inc. (hereinafter "WM"), which is listed on the Second Section of the Tokyo Stock Exchange, and made WM an equity-method affiliate in the subject third quarter period. One of the basic policies under the medium-term management plan is to continue efforts to establish a hotel REIT with an eye toward the post-COVID hotel market. We will accelerate investment in carefully selected hotels by collaborating with WM, a developer that possesses strengths in hotel revitalization and development and information routes for investment projects. We are also moving ahead with procedures to establish a hotel REIT that we have been planning.

As a result, for the subject third quarter cumulative period, net sales amounted to ¥55,607 million (up 17.3% from the same period of the previous fiscal year), with operating income of ¥5,466 million (down 21.6%), ordinary income of ¥6,466 million (up 19.8%), and profit attributable to owners of parent of ¥8,138 million (up 122.8%).

### Results by Business Segment

#### a. Real Estate Business

The Real Estate Business comprises the planning, development, and sales of real estate properties, including the Samty brand S-RESIDENCE series, as well as the planning, development, revitalization and sales of income properties and other real estate.

During the subject third quarter cumulative period, in addition to having sold 23 properties of real estate for sale located mainly in major cities across the nation to Samty Residential Investment Corporation (total sales price of around ¥25 billion), the Company sold "Agora Kyoto Shijo" (Shimogyo-ku, Kyoto-shi) and "Agora Kyoto Karasuma" (Shimogyo-ku, Kyoto-shi) as hotel assets.

As a result, net sales in the Real Estate Business segment amounted to ¥47,306 million (up 19.5% from the same period of the previous fiscal year), with operating income of ¥8,719 million (up 4.7%).

#### **b. Property Leasing Business**

The Property Leasing Business comprises the leasing and management of rental apartments, office buildings, commercial facilities, hotels, and other properties.

Aiming to maximize income gain, the Company conducted steady property acquisition during the subject third quarter cumulative period and acquired 46 income properties totaling around ¥39.9 billion. In addition, the Company completed development of 30 buildings.

As a result, net sales in the Property Leasing Business segment amounted to ¥6,111 million (up 0.6% from the same period of the previous fiscal year), with operating income of ¥2,606 million (down 4.2%).

#### **c. Other Business**

Other Business comprises the holding and operating of hotels as well as a condominium management business and construction/renovation business.

During the subject third quarter cumulative period, the number of hotels the Company holds/operates reached 17 as a result of opening and acquiring “S-PERIA HOTEL Fukuoka Nakasu” (Hakata-ku, Fukuoka-shi) and “Aloft Osaka Dojima” (Kita-ku, Osaka-shi). Although the hotels held/operated by the Samty Group have been impacted by the declaration of a state of emergency, demand is expected to return due to the increase in the vaccination rate. Furthermore, as an initiative for hotel investment, the Company has concluded a capital and business alliance agreement with WM and made WM an equity-method affiliate to press ahead with investment in carefully selected hotels.

As a result, net sales in the Other Business segment amounted to ¥2,189 million (up 26.2% from the same period of the previous fiscal year), with an operating loss of ¥2,348 million (operating loss of ¥602 million in the same period of the previous fiscal year).

## **(2) Qualitative Information on the Consolidated Financial Position**

### **Assets, Liabilities, and Net Assets**

#### **Assets**

Total assets at the end of the subject third quarter period amounted to ¥332,925 million, an increase of ¥82,061 million compared with the end of the previous fiscal year. The main factor for the increase/decrease was a decrease of ¥13,221 million in cash and deposits due to an increase of ¥100,571 million in real estate for sale, real estate for sale under construction and net property and equipment (income properties, etc.) in line with the steady progress in property acquisition.

#### **Liabilities**

Total liabilities at the end of the subject third quarter period amounted to ¥244,001 million, an increase of ¥70,837 million compared with the end of the previous fiscal year. The main factor for the increase/decrease was an increase of ¥65,460 million in borrowings accompanying the acquisition of over 90 properties (combined total of sites for development and of income properties).

#### **Net Assets**

Total net assets at the end of the subject third quarter period amounted to ¥88,923 million, an increase of ¥11,223 million compared with the end of the previous fiscal year. The main factors for the increase/decrease were increases of ¥8,138 million in retained earnings from posting of profit attributable to owners of parent; of ¥5,920 million in non-controlling interests from making S-VIN VIETNAM REAL ESTATE TRADING JOINT STOCK COMPANY (a company engaged in smart-city for-sale housing project in Hanoi City, Vietnam) and R&K Limited (a special purpose company that holds Aloft Osaka Dojima) consolidated subsidiaries, and such.

## **(3) Explanation of Consolidated Results Forecasts and Other Future Predictions**

Based on recent business trends, the Company has revised its full-year business forecast for the fiscal year ending November 2021 (December 1, 2020 to November 30, 2021) announced on June 30, 2021.

During the subject third quarter period, although areas under the state of emergency in Japan expanded due to the spread of a COVID-19 variant and such, socio-economic activities are returning to normal with the current increase in the vaccination rate.

Under such circumstances, concerning forecast figures of full-year consolidated results, the Company has worked with an aim to achieve at least the bottom figures of the range by carefully watching the external environment and replacing properties planned to be sold during the period, including postponing the sale of hotels to the next fiscal year. As a result, net sales and operating income are expected to fall within the forecast range previously announced.

On the other hand, profit attributable to owners of parent, under which an estimate figure of negative goodwill in line with WM's conversion to an equity-method affiliate was recorded in the previous announcement, is now projected to be higher than the assumed amount. Accordingly, it is expected to surpass the previous forecast.

"Notice Concerning Revision of Earnings Forecast and Dividend Forecast (Upward

Revision/Dividend Increase Amendment)" announced on June 30, 2021, was presented in a range format assuming multiple scenarios because it was difficult to accurately project the impact of the spread of COVID-19. However, as it has become possible to tally highly accurate numbers in the final quarter of the fiscal year, we have decided to announce forecasts in specific figures, not in a range format.

With regard to dividends for the current period, based on the revision of the financial forecasts and comprehensively taking into account the financial results, etc., the year-end dividend will be 51 yen per share, an increase of 4 yen per share for the full year.

For details, please refer to "Notice Concerning Revision of Earnings Forecast and Dividend Forecast (Dividend Increase)" announced today (September 30, 2021).

### **(3) Notes Relating to Consolidated Financial Statements**

#### **(Note on Assumptions for Going Concern)**

Not applicable.

#### **(Notes in the Event of Major Changes in Shareholders' Equity)**

Not applicable.

#### **(Change in Accounting Policy)**

##### **Change in accounting for non-deductible consumption tax, etc. related to real estate for sale**

From the fourth quarter of the previous consolidated fiscal year, the Company changed from the previous method—of recording non-deductible consumption tax, etc. related to real estate for sale in selling, general and administrative expenses for the consolidated fiscal year in which the tax was incurred—to the method of including non-deductible consumption tax, etc. on real estate for sale acquired on or after October 1, 2020, in the acquisition cost of applicable real estate for sale.

The change has been applied retroactively from the beginning of the previous consolidated fiscal year and, to reflect the change, the consolidated income statement for the previous third quarter cumulative period has been reclassified. As a result, in the consolidated income statement for the previous third quarter cumulative period, cost of sales increased by ¥14 million, selling, general and administrative expenses decreased by ¥250 million, and operating income, ordinary income, and net income before adjustment for taxes each increased by ¥236 million.

Therefore, there is a difference between the accounting policy applied to the comparative information contained in the quarterly consolidated financial statements for the consolidated cumulative period belonging to the current consolidated fiscal year and that applied to the consolidated financial statements for the corresponding quarterly consolidated cumulative period of the previous consolidated fiscal year.

## (Segment Information)

### I Results for the nine months of FY11/20 (from December 1, 2019 to August 31, 2020)

#### 1. Operating Revenues and Earnings (or Loss) by Reportable Segment

Nine months ended August 31, 2020

	Millions of yen					
	Reportable Segment				Adjustment (Note 1)	Amount Recorded on Consolidated Income Statement (Note 2)
	Real Estate Business	Property Leasing Business	Other Business	Total		
Net sales:						
Net sales from third parties	39,583	6,076	1,734	47,394	—	47,394
Inter-segment net sales and transfers	6	21	194	223	(223)	—
Total	39,589	6,098	1,929	47,617	(223)	47,394

#### Notes

1. The ¥3,511 million downward adjustment to operating income (loss) comprises a negative ¥30 million in intersegment eliminations, and a negative ¥3,480 million in corporate expenses not allocated to any reportable segment. Corporate expenses are general and administrative expenses not attributed to any reportable segment.
2. Segment operating income (loss) is adjusted to the operating income on the consolidated income statement.

#### 2. Disclosure of Impairment Loss of Non-Current Assets or Goodwill by Reportable Segment

Not applicable.

## **(Additional Information)**

### **Change in holding purpose**

Because of a change in holding purpose, ¥12,704 million was transferred from property, plant, and equipment to inventories.

### **Impact of COVID-19 pandemic on accounting estimates**

With regard to the COVID-19 pandemic, because over 50% of the entire population in Japan have completed the second dose of vaccination and the rate is expected to further increase, and the government has decided on the basic policy to ease restrictions on activities, the Samty Group, assuming that socio-economic activities will gradually return to normal from the fall of 2021 with the implementation of these measures to prevent the spread of infection, has reflected such assumption in accounting estimates, such as write-down of inventories and impairment of fixed assets.

As the U.S. and U.K. plan to relax restrictions on entry with complete vaccination, etc. as a precondition, Japan is also expected to follow suit.

## **(Significant Events after the Reporting Period)**

### **Issuance of new shares as restricted stock compensation**

At the Board of Directors' meeting held on September 10, 2021, the Company resolved to issue new shares (hereinafter referred to as "the New Share Issue") as restricted stock compensation as follows.

#### **(1) Purpose of and Reason for Issue**

At the Board of Directors' meeting held on January 22, 2019, the Company resolved to introduce a restricted stock compensation plan (hereinafter referred to as "the Plan") as a new compensation system for directors of the Company. In addition to granting incentives to the Company's directors (excluding outside directors; the same applies hereinafter) to continuously improve the Company's medium- to long-term corporate value and shareholder value, the purpose of the Plan is to further promote the sharing of value with the shareholders. At the 37th Annual General Meeting of Shareholders held on February 27, 2019, approval was granted with regard to the following: (1) Under the Plan, as contributions in kind relating to the granting of restricted stock, monetary compensation receivables of not more than ¥100 million per year shall be paid to the directors of the Company as separate amounts from existing monetary compensation limits, and the total number of the Company's common shares to be issued or disposed of shall be not more than 100,000 shares per year; (2) The transfer restriction period shall be the period from the grant date of restricted stock to the date on which directors of the Company and other positions specified by the Board of Directors of the Company resign or retire; (3)(i) During the period of service stipulated by the Board of Directors of the Company, those eligible are to have continuously remained in a director position or other positions determined by the Board of Directors of the Company; and (3)(ii) In the event that an eligible director of the Company resigns or retires as director or from any other position determined by the Board of Directors of the Company before the end of his or her period of service, that there are grounds

deemed justifiable by the Board of Directors of the Company with regard to the conditions for the cancellation of transfer restrictions.

With regard to the Plan, at the 38th Annual General Meeting of Shareholders held on February 27, 2020, approval was given to changing the monetary compensation receivables paid to the directors of the Company to ¥300 million per year and the total number of the Company's common shares to be issued or disposed of under the Plan to not more than 300,000 shares.

At the Board of Directors' meeting held on September 10, 2021, the Company resolved to grant a total of ¥16,635,300 of monetary compensation receivables to one director of the Company (hereinafter referred to as the "Subject Director"), taking into account the purpose of the Plan, the Company's financial results, the scope of the Subject Director's work responsibilities and other various circumstances, and to issue 7,100 shares of the Company's common shares with the compensation as contributions in kind. The reason for granting restricted stock at a different timing from such for other directors is that overseas laws and regulations had been examined.

(2) Overview of Issue

Payment date	October 8, 2021
Type and number of shares to be issued	7,100 of Company's common shares
Issue price	¥2,343 per share
