(Reference) Changes in the Compensation Plan for Directors

The compensation plan for the Company’s Directors comprises a basic compensation as fixed compensation and a performance-based compensation and stock-based compensation stock options as variable compensation. However, the Company reviewed this compensation plan and proposes to revise the upper limit of the basic compensation and the performance-based compensation, while at the same time transition to a restricted stock compensation plan and a share price-linked point-based monetary compensation plan, in lieu of the current stock-based compensation stock options.

<System of the Compensation Plan for Directors and the Changes to Be Made>

Proposal 5: Revision of the Amount of Compensation for Directors

The amount of compensation for the Directors of the Company was set and approved in the 28th Annual General Meeting of Shareholders held on February 25, 2010 at not more than 500 million yen per year. However, the Company, in light of the increase in the responsibilities of the Directors due to changes in the business environment including the expansion of its business scale, and in an effort to continue enhancing its corporate value by reinforcing the linkage between Director compensation and business performance, the Company proposes to raise the amount of compensation for Directors to not more than 700 million yen per year (including not more than 30 million yen for External Directors).

The amount of compensation for Directors does not include the salary portion of Directors who serve concurrently as employees, as in the past.

Currently, the number of Directors is 8 (including 2 External Directors), and if Proposal 3 is approved as originally proposed, the number of Directors will continue to be 8 (including 2 External Directors).

Proposal 6: Determination of Compensation for Directors relating to the Restricted Stock Compensation Plan and the Share Price-linked Point-based Monetary Compensation Plan

The amount of compensation of stock acquisition rights as stock-based compensation stock options (hereinafter referred to as “Stock Option(s)”) to Directors of the Company was set and approved in the 28th Annual General Meeting of Shareholders held on February 25, 2010 at not more than 70 million yen per year, separate from the amount of compensation for Directors of Proposal 5.

The Company recently reviewed the compensation plan for the Directors and proposes to adopt a restricted stock compensation plan (a compensation plan in which shares are granted to officers with the condition that transfer restriction of such shares shall be canceled at the time of retirement of the officer; hereinafter referred to as “Plan A”) and a point-based monetary compensation plan linked to the share price at the time the transfer restriction of restricted stock is canceled through Plan A (hereinafter referred to as “Plan B”), in lieu of the current stock option plan.

Through Plan A, the Directors will directly hold the physical shares of the Company, making it possible to further reinforce the sense of sharing of common interests with the shareholders. Also, in Plan B, the amount equivalent to what would be paid in taxes when the transfer restriction on the restricted stock, granted in accordance with Plan A, is canceled would be granted as monetary compensation. This will encourage the Directors to continue holding the stocks in the long-term even after their retirement.

Based on this proposal, the Company requests approval for the amount of monetary compensation to be paid to the Directors of the Company (excluding External Directors; hereinafter referred to as “Eligible Director(s)”) as per 1. and 2., respectively, stated below, as separate amounts from the amount of compensation for Directors in Proposal 5.

In terms of Plan A, the specific allocation of monetary compensation to be paid to the Eligible Directors based on this proposal will be determined by the Board of Directors. In terms of Plan B, this proposal requests approval for the specific calculation method of the amount of compensation, etc., which has yet to be determined. Consequently, this proposal will determine the calculation formula of the highest amount of the compensation, which has yet to be determined, and handling of the calculated compensation within such amount will be delegated to the Board of Directors. The specific timing and details of the grant to each Eligible Director will be determined by the Board of Directors, which will be the delegated authority by resolution of this General Meeting of Shareholders.

Currently, the number of Directors is 8 (including 2 External Directors), and if Proposal 3 is approved as proposed, the number of Directors will continue to be 8 (including 2 External Directors).

Furthermore, new Stock Options based on the current stock-based compensation stock option plan will not be granted any more, conditional upon the approval of this proposal.

1. Contents of Plan A

The total amount of monetary compensation to be granted by Plan A will be not more than 100 million yen per year, an amount considered reasonable in light of the objective stated above.

Based on the resolution of the Board of Directors of the Company, the Company shall provide the entire amount of monetary compensation receivables arising from this proposal as contributions in kind, and the Eligible Directors shall receive the Company’s common shares that have been issued or disposed of. The total number of the Company’s common shares to be issued or disposed of shall be not more than 100,000 shares per year (however, in the event that the Company conducts a stock split of its common shares (including the gratis allotment of the common shares of the Company), a reverse stock split or any similar event requiring the adjustment of the total number of common shares to be issued or disposed of as restricted stock after this proposal is approved, the said total number of shares may be adjusted to a reasonable extent). The amount payable per share shall be determined by the Board of Directors within a range that is not specially advantageous to the Eligible Directors, based on the closing price of the Company’s shares on the Tokyo Stock Exchange on the business day immediately preceding the date of the resolution of the Board of Directors (if no trading is reported on that day, the closing price of the Company’s shares on the most recent trading day preceding that day). Furthermore, the issuance or disposal of the Company’s common shares shall be conditional upon the conclusion of a Restricted Stock Allotment Agreement (hereinafter referred to as the “Allotment Agreement”) between the Company and the Eligible Director, containing the outline and the following contents.

- (1) An Eligible Director who receives allotment of the Company’s common shares (hereinafter referred to as the “Allotted Shares”) in accordance with the Allotment Agreement must not transfer to a third party, attach a security interest on or in any other way dispose of the Allotted Shares (hereinafter referred to as “Transfer Restriction”) during the period from the grant date of the said Allotted Shares to the date on

- which the said Eligible Director resigns or retires from the position of Director of the Company or other positions determined by the Company's Board of Directors (hereinafter referred to as the "Transfer Restriction Period").
- (2) In the event that an Eligible Director resigns or retires from the position set forth in paragraph (1) above prior to the expiry of the period determined by the Board of Directors (hereinafter referred to as the "Period of Service"), the Company shall, as a matter of course, acquire the Allotted Shares without consideration, provided, however, that this shall not apply if there are grounds deemed justifiable by the Board of Directors of the Company.
 - (3) Notwithstanding the provision of paragraph (1) above, the Company shall, conditional upon the Eligible Director remaining in the position set forth in paragraph (1) above during the Period of Service, cancel the Transfer Restriction of all Allotted Shares at the time of expiry of the Transfer Restriction Period. However, in the event that the Eligible Director resigns or retires from the position set forth in paragraph (1) above prior to the expiry of the Transfer Restriction Period, for grounds deemed justifiable by the Board of Directors of the Company in paragraph (2) above, the Company shall adjust the number of the Allotted Shares for which the Transfer Restriction is to be canceled, as well as the timing of cancellation of the Transfer Restriction, as necessary, in a reasonable manner.
 - (4) The Company shall, as a matter of course, acquire without consideration any Allotted Shares for which Transfer Restriction had not been canceled based on the provisions of paragraph (3) above at the expiry of the Transfer Restriction Period.
 - (5) Notwithstanding the provision of paragraph (1) above, in the event that, during the Transfer Restriction Period, a proposal regarding a merger agreement in which the Company becomes a non-surviving company, a share exchange agreement or a share transfer plan in which the Company becomes a wholly-owned subsidiary, or any other proposal that involves organizational restructuring, etc. is approved in a General Meeting of Shareholders of the Company (at a meeting of the Board of Directors of the Company, in cases where approval by the General Meeting of Shareholders of the Company is not required for such organizational restructuring, etc.), the Company shall, by resolution of the Board of Directors of the Company, cancel the Transfer Restriction of the Allotted Shares prior to the effective date of such organizational restructuring, etc. The number of such Allotted Shares for which Transfer Restriction is to be canceled shall be determined in a reasonable manner based on the period from the commencement of the Period of Service to the date of approval of such organizational restructuring, etc.
 - (6) In cases set forth in paragraph (5) above, the Company shall, as a matter of course, acquire without consideration any Allotted Shares remaining for which Transfer Restriction is not canceled, at the time immediately after Transfer Restriction has been canceled, in accordance with the provision of paragraph (5) above.
 - (7) The Allotment Agreement shall include the methods of indicating intention and notification under the Allotment Agreement, the procedures for revising the Allotment Agreement and other matters to be determined by the Board of Directors.

2. Contents of Plan B

The summary of the Plan B is as follows.

- (1) Eligible Directors, by the resolution of the Board of Directors of the Company, shall be granted points every year calculated based on the following calculation formula with the upper limit of 100,000 points (1 point = 1 share) per year (hereinafter referred to as the "Points"). The Company requests that determination of the distribution, etc. to each Eligible Director be delegated to the Board of Directors.

Number of points to be granted per year = Number of restricted stock granted in that year × 50%

- (2) The Points shall continue to be granted and accumulated during the Eligible Director's term of office, and Eligible Director's accumulated points shall be finalized at the time the Eligible Director resigns or retires from the position determined by the Board of Directors of the Company or when the Transfer Restriction is otherwise canceled.
- (3) An Eligible Director shall receive monetary payment at the time the Eligible Director resigns or retires from the position stated in paragraph (2) above or when the Transfer Restriction is otherwise canceled, in the amount calculated based on the following calculation formula as the upper limit, by multiplying the accumulated points held by the said Eligible Director in paragraph (2) above (however, in the event that the Transfer Restriction on all or a part of the restricted stock which has been granted to the said Eligible Director in accordance with Plan A has not been canceled, the number of shares for which the Transfer Restriction was not canceled shall be deducted from the number of accumulated points; hereinafter the same shall apply) by the closing price of the Company's shares on the Tokyo Stock Exchange on the date

on which the said Eligible Director resigns or retires from the position stated in paragraph (2) above or when the Transfer Restriction is otherwise canceled (if no trading is reported on that day, the closing price of the Company's shares on the most recent trading day preceding that day; hereinafter, the same shall apply).

Amount of monetary compensation payment = Number of accumulated points in (2) above × Closing price of the Company's shares on the date the Transfer Restriction is canceled

- (4) In the event that the Company conducts a stock split of its common shares (including the gratis allotment of the common shares of the Company), a reverse stock split or any similar event requiring the adjustment of the upper limit and the total number of the Points, after this proposal is approved, the said upper limit and the total number of the Points shall be adjusted to a reasonable extent.
- (5) Other specifics of Plan B shall be determined by internal rules set forth by the Board of Directors.

Proposal 7: Changes to the Contents of the Stock-based Compensation Stock Options for Directors

The upper limit of stock-based compensation stock options was set and approved in the 28th Annual General Meeting of Shareholders held on February 25, 2010 at 70 million yen per year, and subsequently the issuance of stock acquisition rights have been resolved at the Board of Directors meetings held on July 25, 2011, September 25, 2012, June 25, 2013, April 25, 2014, April 24, 2015, April 25, 2016, April 25, 2017 and February 27, 2018, followed by the granting of the stock-based compensation stock options.

The Company, as per Proposal 6, decided to adopt the restricted stock compensation plan (a compensation plan in which shares are granted to officers with the condition that Transfer Restriction of such shares shall be canceled at the time of retirement of the officer) and a share price-linked point-based monetary compensation plan as compensation for its Directors, in lieu of the stock-based compensation stock option plan. Consequently, as the Company will be able to directly grant its common shares to the Directors, with regard to the stock-based compensation stock options which have been granted in accordance with the stock-based compensation stock option plan but whose rights have not been exercised, the Company proposes to make partial amendments to the conditions for the exercise of rights as stated below to enable the early exercise of rights and acquisition of shares and further promote the sharing of value with the shareholders. The Company, therefore, proposes to change the conditions for the exercise of rights relating to the stock acquisition rights, which have been granted to the Directors of the Company as stock-based compensation stock options.

This proposal will be conditional upon the approval of Proposal 6 and, if approved, shall become effective on May 1, 2019.
